

# Summer 2025 Croatia Science & Culture Program

Science, Connections, Conversations

**June 21 – July 5, 2025 | Island of Hvar, Croatia**

## Marine & Molecular Biology Research

Conduct field and lab research with expert scientists and Hvar high school students.

## Scuba Certification

Explore one of the most beautiful underwater ecosystems in the world.

## Lab Work

Research marine anatomy, regenerative biology, DNA sequencing, and gene expression.

## Mediterranean Culture

Experience Hvar's history through guided tours and local cultural exchange activities.

## Science Communication

Create podcast content and present research at a Seminar Symposium.

## Join a Global Science Network

Be a member of an emerging international marine research hub.

### Open to:

High school and college students, with

- intermediate swim skills
- biology fundamentals
- current U.S. passport

No lab experience necessary!

**Application Deadline:  
April 4, 2025**
